PROFESSIONAL SUMMARY

B.Tech IT student at P P Savani University with hands-on experience in full-stack web development using PHP, Laravel, React.js, Node.js, and MongoDB. AWS Academy certified with knowledge of cloud deployment and services. Built real-world projects including a restaurant ordering system, flight booking platform, and ticketing system. Seeking a full-stack or web development internship to apply and improve practical and development skills.

EDUCATION

P P Savani University

B.Tech – Information Technology

Surat, Gujarat, India

July 2023 – June 2027

- Relevant Coursework: DSA, OOP, DBMS, Cloud Computing, Web Technologies, Advanced Web Technology

TECHNICAL SKILLS

Languages: JavaScript, PHP, SQL, HTML, CSS

Frontend: React.js, Bootstrap, Blade Templating, Responsive Web Design

Backend & DB: Node.js, Express.js, Laravel (MVC), MongoDB, MySQL

Tools & Concepts: GitHub, XAMPP, OOP, RESTful APIs, MVC

PROJECTS

SmartDine - Digital Restaurant Ordering System | PHP, Laravel, MySQL, AJAX

2026

- Built a full-stack ordering system (AWT coursework) with 9 menu categories, 36+ dishes, AJAX live search, cart with GST calculation, invoice generation, and real-time order notifications.
- Backend: PHP OOP, normalized 4-table MySQL schema, SQL injection prevention via prepared statements.
- Laravel Admin Panel (MVC + Blade + Eloquent ORM) for food item management and real-time order status tracking (Pending to Preparing to Served).

SkyBook - Smart Flight Booking & Management System | React.js, Node.js, MongoDB, JWT

2026

- Full-stack MERN flight booking app similar to MakeMyTrip with JWT auth, flight search, passenger booking, simulated payments (UPI/Card/Net Banking), and boarding pass PDF download.
- Admin panel for flight and booking management; role-based access (User & Admin); secured with JWT and Bcrypt.

Support Ticket Management System | PHP, MySQL, HTML, CSS

2026

- Web-based ticketing system with Smart Priority Assignment, SLA Deadline Tracking, Bookmark System, and Admin Dashboard for complaint management and status updates.

CERTIFICATIONS & ACHIEVEMENTS

AWS Academy Graduate - Cloud Foundations | Amazon Web Services

2025

- Covered core AWS services (EC2, S3, IAM, VPC), cloud security, deployment models (IaaS/PaaS/SaaS), scalability, and high availability.

Software Project Management | NPTEL Certification

2025

- Completed course on Agile methodologies, project planning, risk management, and software lifecycle processes.

Cloud Computing | NPTEL - Elite Grade

2026

- Achieved Elite grade; topics included cloud architecture, virtualization, and distributed systems.

CORE COMPETENCIES

Full-Stack Web Development | Cloud Computing (AWS) | RESTful API Development | OOP
Database Design | Problem Solving | Quick Learner
